

SIDE EVENT

11 July 2016
13:15–14:30

INCLUDES
LUNCH

Environmental Aspects of the ISA Exploitation Regulations

Delegates Dining Room, International Seabed Authority, Kingston, Jamaica

You are cordially invited to join the DSCC for a discussion focussed on the environmental aspects of the exploitation regulations currently under negotiation by the International Seabed Authority and its members.

PROGRAMME

Latest scientific assessments of potential risks and impacts of proposed seabed mining activities and associated recommendations.

Presentation by Matthew Gianni (Co-founder of and Political and Policy Advisor to the DSCC), Duncan Currie (Legal Advisor to the DSCC) and Dr. Simon Walmsley (Marine Manager, WWF-International).

Global launch of a report from the University of Technology Sydney
Renewable Energy and Deep Sea Mining: Supply, Demand and Scenarios.
By lead author Dr. Sven Teske.

Open-floor discussion. Moderated by Torsten Thiele (Founder of the Global Ocean Trust).

RSVP to Sian Owen (info@savethehighseas.org) by 5 July 2016
